Have you been suffering from...

Headaches?

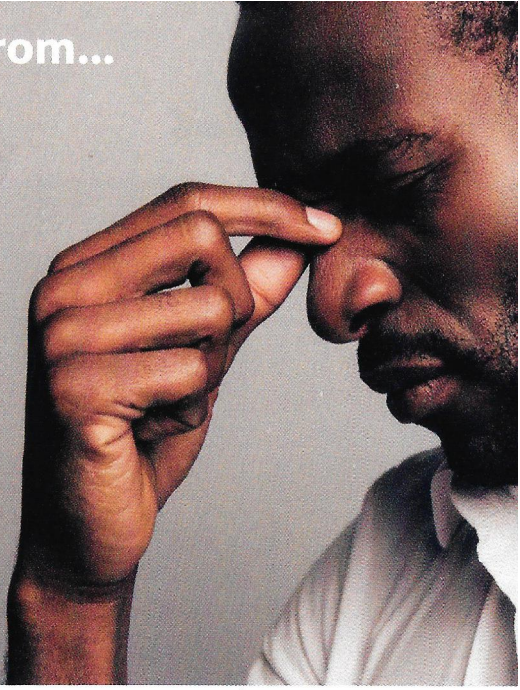
Tiredness?

Shortness of breath?

Heart palpitations?

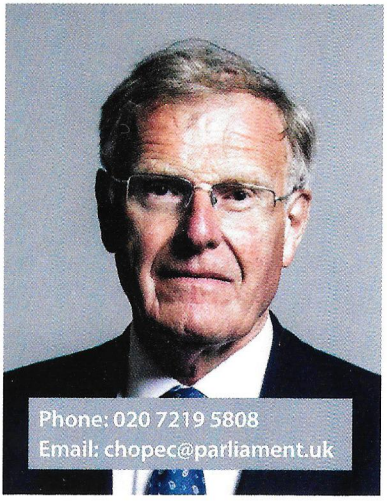
Fevers or unexpected ailments?

Have you lost a loved one due to a sudden or unexpected illness?



Sir Christopher Chope
British Barrister & Conservative Party Politician

"This Bill is not about the tens of millions of people in the United Kingdom who have benefited from the vaccination programme; it is about the tens of thousands for whom the harm caused by the vaccines is greater than the benefit.
The specific focus of this Bill is on the families of those who tragically died, or suffered severe injury or life-changing conditions as a result of doing their public duty and being vaccinated."



You were given a choice, But were you given all the information?
